### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

In assessing the risk level of a fund, most fund managers use a methodology based on volatility which looks at how much a fund's returns change over time. However, for this Fund, Bullion Management Services Inc. identifies the risk level based primarily on qualitative factors (e.g., negative correlation to other asset classes, effective hedge vs inflation and value of US dollar, preservation of purchasing power and intrinsic value) and Bullion Management Services Inc.'s views on the fundamentals of gold and the role of gold as a wealth protection strategy.

**The risk rating of this Fund may not be comparable to other mutual funds that use a methodology based on volatility of fund returns.**

For a description of the risk classification methodology that Bullion Management Services Inc. uses to rate the risk level of the Fund, see the "Fund Risk Classification" section of the simplified prospectus.

### Risk rating

Bullion Management Services Inc. has rated the risk rating of the Fund as **medium**.

This rating is based on qualitative factors and Bullion Management Services Inc.'s views on the fundamentals of gold and the role of gold as a wealth protection strategy. It doesn't tell you what the risk rating of the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the Risks of Investing in a Mutual Fund?" section of the Fund's simplified prospectus.

### No guarantees

Like most mutual funds, this Fund does not have any guarantees. You may not get back the money you invest.

**How has the Fund performed?**

This section tells you how the Class S1 units of the Fund have performed since inception. Returns are after fund expenses have been deducted. These expenses reduce the Class S1 units' returns.

**Year-by-year returns**

This chart shows how the Class S1 units of the Fund have performed for each of the past 5 years. The class dropped in value in two of the 5 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Class S1 units of the Fund in a 3-month period over the past 5 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
<b>Best return</b>	21.1%	January 31, 2015	Your investment would rise to \$1,211
<b>Worst return</b>	-22.8%	June 30, 2013	Your investment would drop to \$772

**Average return**

The annual compound return of Class S1 units of the Fund was -0.1% since inception. If you had invested \$1,000 in the Fund since inception, your investment would be worth \$995 as of August 31, 2015.

**Who is this fund for?**

Investors who want:

- Investments in a gold bullion only fund
- Capital preservation and long term appreciation in gold
- Portfolio diversification and hedging

**⚠ Do not invest in this Fund if you need a steady source of income from your investments.**

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Class S1 units of the Fund. The fees and expenses – including any commissions – can vary among classes of the Fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

This class is only available in Front-end sales charge.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
<b>Front-end sales charge</b>	0% to 5.5% of the amount you buy	\$0 to \$55 for every \$1,000 you buy	<ul style="list-style-type: none"> <li>The front-end sales charge is deducted from the amount you buy and is paid to your representative as a commission when you buy the units.</li> </ul>

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of June 30, 2015, the Fund's expenses were 1.11% of its value. This equals \$11.10 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
